Experience

Anam Veros - Freelance Web Developer

August 2008 - Sept 2015

- Worked closely with small business clients to develop web solutions including but not limited to websites, branding, SEO, social networking, and training.
- Contracted to work with several designers and developers in the field on large and small-scale development projects.
- Experienced in latest web standards including responsive, and mobile-first design and development.
- Worked predominately with the Wordpress CMS. Built a handful of website solutions with the Joomla CMS.
- Organized spreadsheet data for database entry.

Recent Projects

FerryFarmFlyingFish.com

Wordpress website built for local Rappahannock Swim League team, The Ferry Farm Flying Fish, in Stafford County, VA. Site completed with Wordpress CMS using a customized Roots Sage starter theme. Learning objectives include:

- Advanced development workflow
- Automation with gulp.
- Writing style sheets with Sass
- Synchronized browser testing with BrowserSync

Fun With Recipes
